

Issued: October 2026

STATEMENT WEEE Directive

Nexperia manufactures semiconductor components intended for incorporation into electrical and electronic equipment. As stand-alone components, these products do not have independent functionality and are not considered EEE; therefore, obligations per Directive 2012/19/EU on waste electrical and electronic equipment (WEEE) for finished equipment do not apply to Nexperia components as supplied by Nexperia in their original sale condition.

In accordance with Annex VII of the Directive, plastics containing brominated flame retardants (BFRs) are subject to selective treatment requirements during waste processing. To support downstream WEEE treatment and recycling obligations, Nexperia indicates the presence of BFRs in the encapsulating mould compound where applicable. Products containing BFRs are assigned RHF-2006 indicators G or E. Those products meeting Nexperia's Halogen-Free requirements¹ are identified by RHF-2006 indicators D or H, and by the 'HALOGEN FREE' logo on the packaging label. RHF-2006 indicators are also shown on the chemical content page for each part type; for example, on the page for [BAS16-Q](#). RHF-2006 indicators are also available via Nexperia's [Environmental Compliance Data Feed](#) for currently marketed Nexperia products. The data feed provides structured, machine-readable compliance information and is maintained to reflect current regulatory requirements.

This statement is based on information available to Nexperia and applies only to Nexperia products in their original sale condition, as supplied by Nexperia. It does not address customer-manufactured products or end-use applications. Nexperia does not perform universal independent verification of all material content for every product. This statement is for informational purposes only and does not amend or supersede any existing agreement between the parties. Nexperia's standard terms and conditions of sale apply. For further information, please contact your usual Nexperia representative, reach out to the nearest [sales office](#), or submit a request via our [technical support form](#).

Sincerely,

Timo Stein
